October 20, 2020

Contents

1	Overall Design Philosophy	1
2	Files	2
3	Variable naming	3

Chapter 1

Overall Design Philosophy

Chapter 2

Files

Directory Structure:

- Try to stick to standard names that other projects use (src, doc, etc.)

File names:

- No capitol letters
- Use underscores to between words
- Names should be short but descriptive (less than 25 characters)
- Source term files should start with “calc_”

Chapter 3

Variable naming
